Betonbrücke für Neubaustrecken Set 02

Das Eränzungsset beinhaltet 20 Modelle. Bestehend aus Brückenteile mit beidseitiger Lärmschutzwand und Gleisobjekte mit ein- und zweiseitiger Lärmschutzwand.
Als Immobilien zur freien Gestaltung sind Lärmschutzwände in den Längen 20m, 40m und 60m enthalten.

Diese Art von Brücken kommen bei Hochgeschwindigkeits- bzw. Neubaustrecken zum Einsatz.

Die Modelle sind für alle EEP Versionen von 2.43 bis EEP6 verwendbar.

Die Modelle sind in EEP zu finden unter:
\Resourcen\Gleisobjekte\Gleise\Bruecken
\Resourcen\Immobilien\Andere

Die Modelle im einzelnen:

Lärmschutzwände als Immobilien
